SUMMARY

Motivated final-year Bachelor of Computer Science student with a **CGPA of 3.88** and practical skills in web development, database design, and system integration. Experienced in using **Java, PHP, SQL, HTML, CSS and JavaScript** through academic and final year projects. Strong in **teamwork, adaptability, and problem solving**. Seeking an internship placement for a **14-week internship** as a **Full-Stack Developer** starting 7 September 2026 until 11 December 2026 to apply technical knowledge, improve development skills, and contribute to real-world software projects.

EDUCATION

Universiti Teknologi MARA (UiTM), Shah Alam Bachelor of Computer Science CGPA: 3.88 Dean's Award	2023 - Present
Universiti Teknologi Mara (UiTM), Dengkil Foundation in Engineering CGPA: 3.93	2022 - 2023
SMK Seri Serdang Sijil Pelajaran Malaysia (SPM) 8A 2B	2017 - 2021

ACADEMIC PROJECTS

Cloud Scheduling Simulation Monitoring Platform (<i>IW-CloudMASim</i>) Final Year Project Tech Stack: React, Tailwind CSS, FastAPI, Python - Built a full-stack web platform that lets users configure, start, and monitor multi-agent cloud scheduling training and evaluation from the browser. - Implemented WebSocket streaming to update training progress and scheduling metrics live to frontend. - Implemented a layered architecture separating the simulation engine, API gateway, and frontend for modularity.	2026
Car Rental Management System Academic Project Tech Stack: PHP, MySQL, HTML, CSS, JavaScript - Built a full-stack booking platform handling vehicle, customer accounts, reservations and payment records - Designed a normalised MySQL schema across bookings, vehicles, customers and payments, - Configured a GitHub Actions CI/CD pipeline to automatically deploy the site to InfinityFree hosting over FTP on each push.	2025

SKILLS

Technical Skills

- Software Development: **Java, PHP, C++, HTML, CSS, React.js**
- Database: **MySQL, Oracle**
- Tools & DevOps: **Docker, CI/CD (GitHub Actions), GitHub, Vercel, AI Agent CLI**
- Basic Exposure: **FastAPI, Python, Dockerhub**

Soft Skills: Team Collaboration | Adaptability | Problem Solving | Time Management

Languages: Malay (Native), English (Proficient)

TRAINING & ACTIVITIES

Korea-ASEAN Digital Academy Malaysia Track (Ongoing) AI-enabled full-stack development training under a Korea-ASEAN digital talent initiative (NIPA, MDEC)	June 2026 - Aug 2026
--	-----------------------------

- Delivered Session 2, "Digital Ethics 101: Ethics in AI for Higher Education,"
- International audience India University of 500+ participants
